

## Investigations: K-12 Settings

- In all scenarios below, a student or staff is considered a close contact when they are within **6 feet of the COVID-19 positive individual for 15 minutes or more.**
- Contacts asked to self-monitor should monitor themselves closely for COVID-19 symptoms during the two weeks after exposure. If they develop symptoms, they should stay home and contact a healthcare provider about testing for COVID-19. If contacts who are self-monitoring develop symptoms but do not get tested, they should remain home until at least 10 days after symptom onset.
- In all scenarios below, **individuals who are fully vaccinated and identified as close contacts do not need to quarantine.** However, if they have an exposure which otherwise would have resulted in quarantine, it is recommended that they be tested 3-5 days after the exposure.
- K-12 students or staff who are **close contacts due to exposure to a household member and are not fully vaccinated are required to quarantine.**

*When a masked student/staff tests positive and close contacts were wearing masks.*

**ISOLATE**

**COVID  
POSITIVE**

**SELF-MONITOR**

**CLOSE  
CONTACTS**

***Everyone Masked***

*When an unmasked student/staff tests positive and close contacts were wearing masks.*

**ISOLATE**

**COVID  
POSITIVE**

**QUARANTINE**

**CLOSE  
CONTACTS**

***Close Contacts Masked***

*When an masked student/staff tests positive and SOME close contacts were wearing masks.*

**ISOLATE**

**COVID  
POSITIVE**

**QUARANTINE**

**SELF-MONITOR**

***Some Close Contacts Masked***

*When an unmasked student/staff tests positive and close contacts were NOT wearing masks.*

**ISOLATE**

**COVID  
POSITIVE**

**QUARANTINE**

**CLOSE  
CONTACTS**

***No One Masked***
